Headquarters Contract Approval No. 59-7
Contract No. BC-450
Customer No. 1

You are authorized to modify and install in a tank (Contractor furnished at no cost to Government), for the F-104 aircraft, a complete photographic system. Photographic system will be of long focal length (24 inches or longer) and include camera windows, mirrors, wiring and all controls as required.

The above system will be flight tested on an F-104 aircraft (Contractor furnished at no cost to the Government) at all altitudes and speeds up to maximum altitudes and Mach. Complete flight test requirements will be furnished at a later date but will include in addition to the above tests with different type film.

The estimated cost is \$14,000 for this work. The actual cost should be charged to Customer No. 1 against Contract No. BC-450. In submitting invoices for this work it is requested that costs for this work be itemized separately referencing this Approval.
